SL55 CUSTOM Wall Sconce Series

Focus Industries offers custom designed illuminated sconces in both plasma cut and vinyl printed models. Sconces are the perfect finishing touch for your signature lighting projects. We are able to replicate corporate logos, trademarks, and many more beautiful designs.

Plasma cut models are made using our state of the art plasma cutter to etch your design directly into the base material. We then add your choice of LED light source plus choice of color finish for a unique custom product.

Vinyl Models are printed on our eight color printer for the most accurate color matching possible. We print on heavy duty 8mm special fade and weather resistant vinyl that is laminated to add an additional layer of protection. Vinyl prints are guaranteed to be fade resistant for up to 5 years.

PLASMA CUT STOCK DESIGNS ON FILE
