# Flat Top LED Beacon

## NEW!

Meet the newest Focus Industries LED Beacon: the Flat Top Light Beacon with an extended flat cap design. This compact 2.25" x 2.25" vertical rectangular fixture is perfect for illuminating pathways, walkways, or open spaces. Powered by a 5-watt or 7-watt MR16 super saver LED, it's available in 12V or 120V, providing efficient and effective lighting through a clear tempered glass lens. Built with durable aluminum or brass, it comes in a range of finishes, including unique acid treatments for brass, blending functionality with style for any contemporary outdoor setting.
