# Round LED Beacon

## NEW!

Introducing the latest LED Beacon from Focus Industries—a sleek round beacon with a dome cap and four illuminated windows. Designed for versatile outdoor lighting, it's perfect for pathways, walkways, or open spaces as an area light. The beacon is powered by either a 7-watt or 11-watt LED module, offering energy-efficient brightness with style. Constructed from durable aluminum or brass, it's available in a variety of finishes, including acid treatments for brass, ensuring it complements any landscape design. This beacon combines aesthetic appeal with functionality, making it a standout choice for outdoor lighting.
